

JETS

**YOUR AVIONICS DIGITAL TWIN SOLUTION.
CREATE, TEST & CERTIFY WITH JETS VIRTUAL PLATFORM**

Performance JETS is a cloud-based systems and software development platform for the rapid deployment of avionics products. By using our FAA approved virtual platform, realize the benefit of unlimited access to hardware. Accelerate your time to market by finding bugs sooner, efficiently developing software, and running tests for score every time.

Shorten Time to Market.

Reduce the time to complete both software and systems tests by 2x.

Increase Safety.

Develop higher quality safety critical software through continuous testing and integration.

Reduce Hardware Costs.

Use JETS Virtual Machines as a hardware replacement for a typical savings of 10x.

Certification Credit with FAA.

Use JETS Virtual Machines as a formal execution environment.
